

The HHTV Club is a vehicle in which high school students can express themselves through film making and TV production. Students who join the club create films, edit videos, and help produce live TV shows for the high school and school district. Students have opportunities to enter their work in film festivals and the Student Emmy Awards.

HHTV students have been recognized by winning over 40 awards for their work in Television and film production.

It's never too late to join the club. All Students will be taught how to operate the equipment. Students just need to bring their creative spirit.
