Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Hatboro-Horsham School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Hatboro-Horsham School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hatboro-Horsham School District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hatboro-Horsham School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Change in Accounting Policy

As discussed in Note Q, for the year ended June 30, 2022, Hatboro-Horsham School District adopted new accounting guidance, implementing Governmental Accounting Standards Board Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Hatboro-Horsham School District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate that raise substantial doubt about Hatboro-Horsham School District's ability to continue as a going concern for one year after the financial statement date.

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hatboro-Horsham School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hatboro-Horsham School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 10 through 24, budgetary comparison information on pages 78 and 79, schedule of the school district's proportionate share of the PSERS net pension liability on page 80, schedule of the school district's PSERS pension contributions on page 81, schedule of the school district's proportionate share of the PSERS net other postemployment benefit plan liability on page 82, schedule of the school district's PSERS other postemployment benefit plan contributions on page 83 and schedule of changes in the total other postemployment benefit plan liability and related ratios on page 84 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hatboro-Horsham School District's basic financial statements. The supplementary information listed in the table of contents and the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and schedule of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it..

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2023, on our consideration of Hatboro-Horsham School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Hatboro-Horsham School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

YEAR ENDED JUNE 30, 2022

This section of the Hatboro-Horsham School District's annual financial report presents its discussion and analysis of the School District's financial performance during the fiscal year ending June 30, 2022. Please read it in conjunction with the notes to the financial statements and the financial statements to enhance the understanding of the School District's financial performance.

The management's discussion and analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements--and Management's Discussion and Analysis--for State and Local Governments*, issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

SCHOOL DISTRICT HIGHLIGHTS

The District consists of six schools - four elementary schools, one middle school, and one senior high school - consisting of approximately 4,200 students. The District encompasses the municipal subdivisions of the Borough of Hatboro and Horsham Township in Montgomery County, Pennsylvania and covers approximately 19 square miles. The District is located in eastern Montgomery County and lies approximately 20 miles north of Center City Philadelphia. There are approximately 730 employees in the District including teachers, administrators and support personnel. The District aims to improve performance and achievement of all students by utilizing appropriate curricular and academic programming and strategies as determined by local and state measurements, through explicit skill instruction and rigorous tasks that are differentiated to allow all learners to meet and exceed expectations. The District's vision is that every school will be a school in which all children will grow and thrive in order to reach their full potential and become contributing members of the community.

FINANCIAL HIGHLIGHTS

- The School District's prepares its budget according to Pennsylvania law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The School District uses site-based budgeting that is designed to tightly control total site budgets while providing flexibility for site managers. Extensive internal control mechanisms are in place and reviewed regularly to prevent any form of fraud, waste, or abuse of School District funds.
- On a government-wide basis including all governmental activities and the business type activities, the liabilities and deferred inflows of resources of the District exceeded the assets and deferred outflows of resources resulting in a deficit in total net position at the close of the 2021-2022 fiscal year of \$60,261,051. During the 2021-2022 fiscal year, the District had an increase in total net position of \$13,812,140. The net position of governmental activities increased by \$11,228,448 and net position of the business-type activities increased by \$2,583,692.
- The General Fund reported an increase in fund balance of \$1,482,683, bringing the cumulative balance to \$23,389,696 at the conclusion of the 2021-2022 fiscal year. On June 30, 2022, the General Fund fund balance includes \$14,694,039 committed or assigned by the School Board and management for the following purposes:
 - Public School Employee Retirement System (PSERS) rate increases: \$4,639,358
 - Real Estate Taxes: \$2,537,705
 - Capital Projects: \$1,642,365
 - Stabilization for lost Naval Air Station revenues due to closure: \$2,113,128
 - Educational Resources: \$481,395
 - Balancing the 2022-2023 Budget: \$3,072,408
 - Student scholarships: \$207,680

HATBORO-HORSHAM SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2022

- At June 30, 2022, the General Fund fund balance includes unassigned amounts of \$8,513,316 or 7.0% of the 2022-2023 General Fund expenditure budget. This complies with School Board policy and the Pennsylvania Department of Education guidelines that allow a district to maintain an unassigned maximum General Fund fund balance of 8% of the following year's expenditure budget.
- General Fund revenues and other financing sources totaled \$116,093,178 for 2021-2022 compared to \$109,610,935 in total expenditures, resulting in an operating surplus (before transfers) of \$6,482,243. The District transferred \$4,999,560 to other funds in anticipation of future expenditures as follows:
 - \$2,560,829 to the Capital Reserve Fund
 - \$1,438,731 to the Medical Fund
 - \$1,000,000 to the Debt Service Fund

After transfers, the ending surplus for the General Fund amounted to \$1,482,683.

OVERVIEW OF THE FINANCIAL STATEMENTS

The accompanying financial statements have been prepared in accordance with GASB Statement No. 34 and present both government-wide and fund level financial statements using both the accrual and modified accrual basis of accounting, respectively.

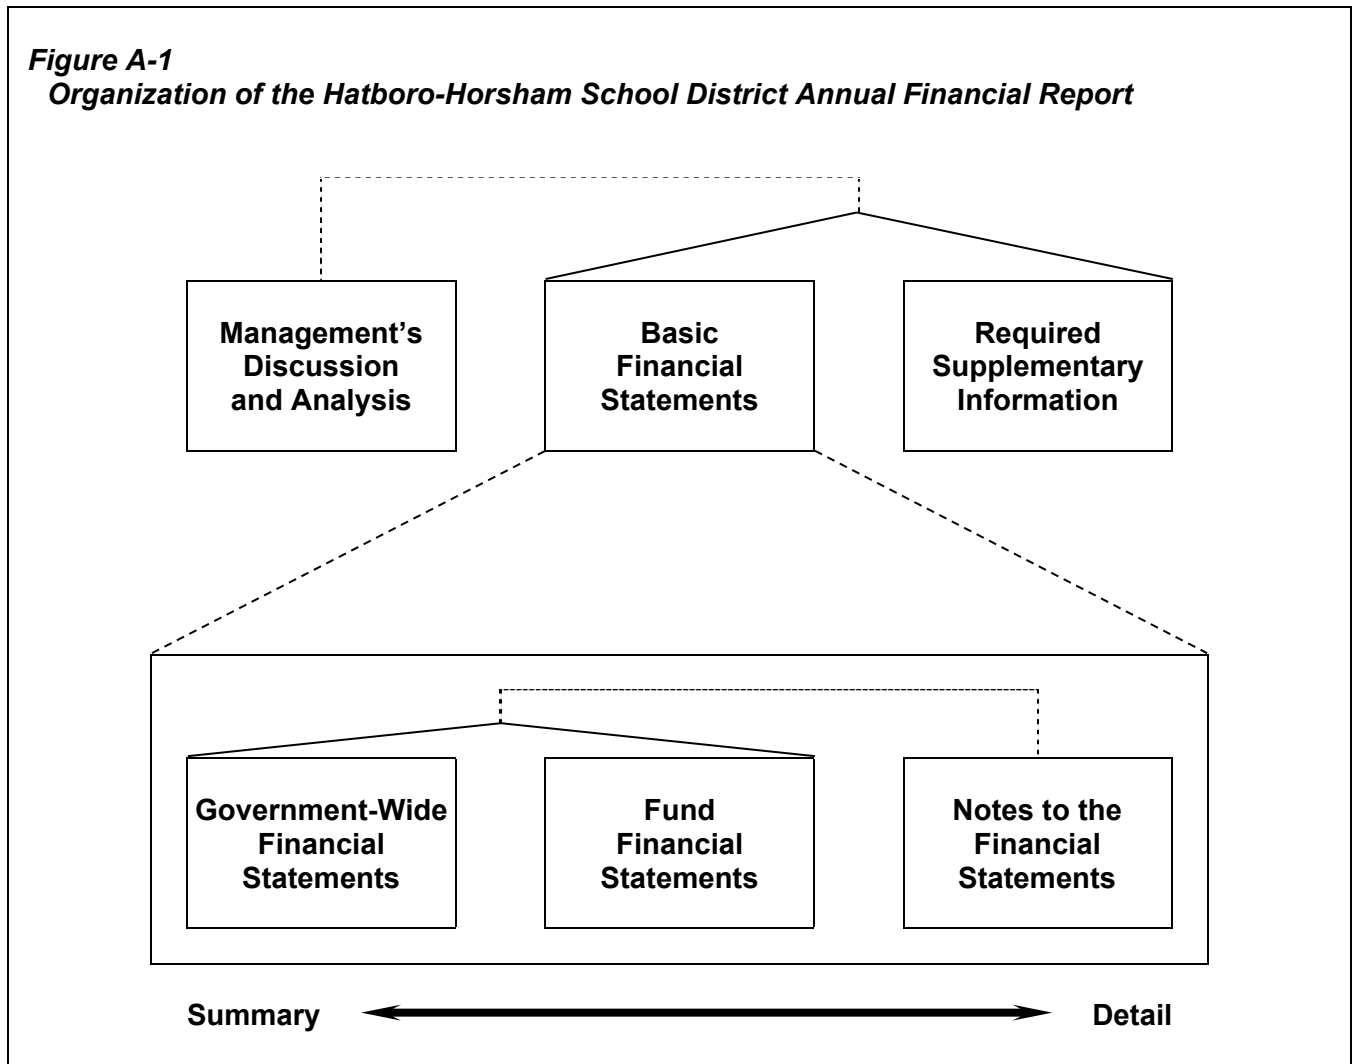

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School District:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the School District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the School District, reporting the School District's operations in more detail than the government-wide statements.
 - ✓ The Governmental Funds statements tell how basic services such as regular and special education were financed in the short term, as well as what remains for future spending.
 - ✓ Proprietary Funds statements offer short-term and long-term financial information about the activities the School District operates like businesses, such as food services and child care services.
 - ✓ Fiduciary Funds statements provide information about the financial relationships in which the School District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the School District's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Government-Wide Statements

The government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the School District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the School District's net position and how it has changed. Net position--the difference between the School District's assets and liabilities--is one way to measure the School District's financial health or position.

- Over time, increases or decreases in the School District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the School District's overall health, you need to consider additional nonfinancial factors such as changes in the School District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the School District's activities are divided into two categories:

- **Governmental Activities:** Most of the School District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- **Business-Type Activities:** The School District charges fees to help it cover the costs of certain services it provides. The School District's food service program and child care program are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the School District's funds, focusing on its most significant or "major" funds--not the School District as a whole. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The School District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

HATBORO-HORSHAM SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2022

The School District has three kinds of funds:

- **Governmental Funds:** Most of the School District's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the Governmental Funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information following the Governmental Funds statements explains the relationship (or differences) between them.
- **Proprietary Funds:** Services for which the School District charges a fee are generally reported in the Proprietary Funds. The Proprietary Funds are reported in the same way as the government-wide statements. The School District's Enterprise Funds (one type of Proprietary Fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows.
- **Fiduciary Funds:** The School District is the trustee, or fiduciary, for assets that belong to others, such as the Student Activities Funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

- Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$20.0 million or 16.4% of total revenues, and general revenues accounted for \$102.1 million or 83.6%.
- Governmental activities expenditures totaled \$104.9 million, of which \$65.4 million was spent on instructional services, \$34.4 million was spent on support services, \$1.7 million was spent on non-instructional programs, \$1.2 million on amortization of right to use asset, \$2.1 million was used for interest payments on long-term debt and \$.1 million on refund of prior year revenues. Business-type activity expenditures totaled \$3.5 million

Governmental Activities

Governmental activities consist of the General Fund, Capital Reserve Fund and Construction Fund (collectively known as the Capital Projects Fund), Debt Service Fund and other Bond Funds.

General Fund

The General Fund is the District's primary operating fund. At the conclusion of the 2021-2022 fiscal year, the General Fund fund balance was \$23,839,696 representing an increase of \$1,482,683 in relation to the prior year. The increase in the District's General Fund fund balance is due to many factors. The following analysis has been provided to assist the reader in understanding the financial activities of the General Fund during the 2021-2022 fiscal year. The District's reliance upon tax revenues is demonstrated by the graph below that indicates 76.09% of General Fund revenues are derived from local taxes.

	<u>2022</u>	<u>2021</u>	<u>\$ Change</u>	<u>% Change</u>
Tax revenues	\$88,336,764	\$84,822,443	\$3,514,321	4.1%
Intergovernmental revenues	26,754,946	25,382,258	1,372,687	5.4%
Investment earnings	35,566	110,205	-72,328	-67.0%
Other	965,903	358,564	607,339	169.4%
	<u>\$116,093,178</u>	<u>\$110,673,470</u>	<u>\$5,422,019</u>	<u>4.9%</u>

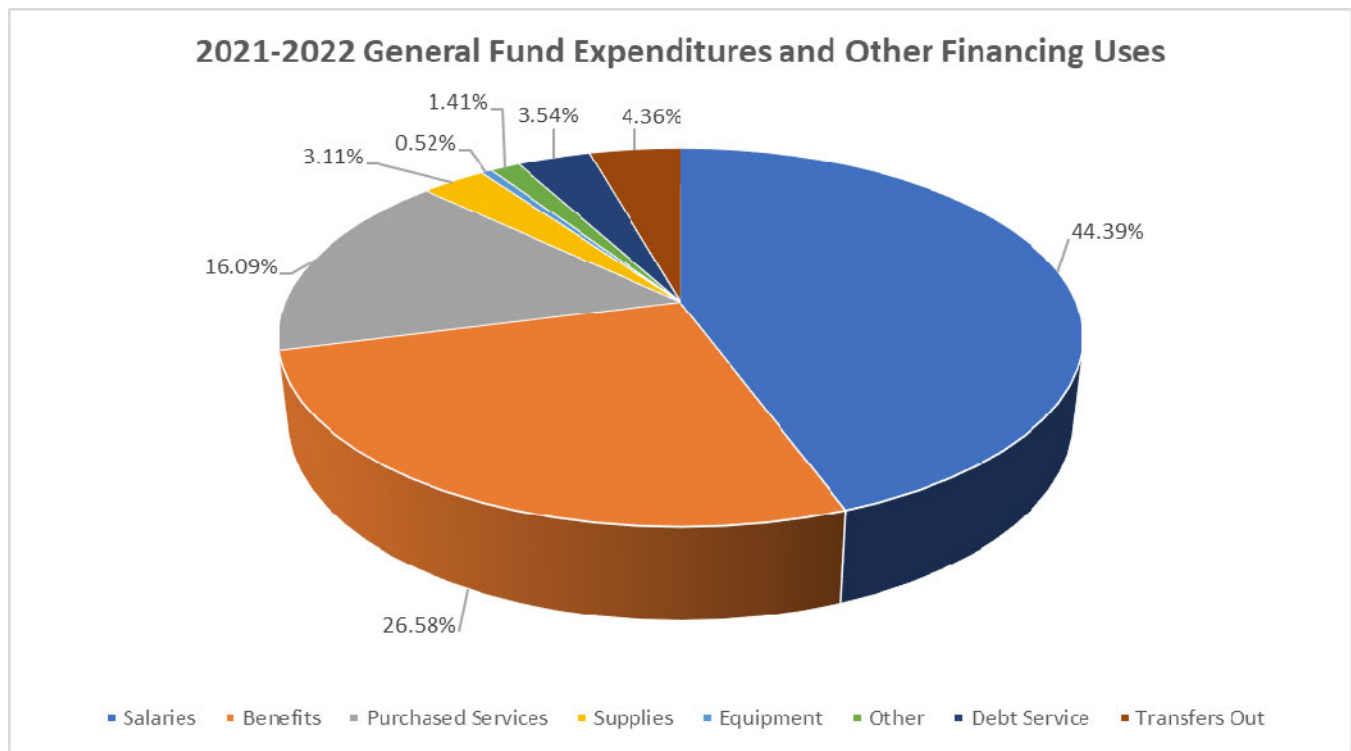

The reason for the variances are summarized below:

- Tax revenues
 - Current real estate taxes increased by \$2,008,203 due to increases in the millage rate, assessed value, and collection rate.
 - Interim real estate taxes increased by \$293,887 due to accelerated new home construction in the District.
 - Earned income taxes increased by \$204,993 due to continued growth in wages.

HATBORO-HORSHAM SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2022

- Real estate transfer taxes increased by \$594,350 due to an increase in average home prices and the volume of sales transactions in the fiscal year.
- Delinquent real estate taxes increased by \$409,771 due to the receipt of prior year rollback taxes on properties that were removed from the state’s Act 319 “clean and green” program due to their anticipated development.
- Intergovernmental revenues increased primarily due to the continued receipt of federal pandemic relief funds (\$1,359,673 in 2021-2022) and continued increases in state aid.
- Investment earnings decreased due to an increase in fees for the investment manager and the carryover from lower interest rates from prior years.
- Other revenues increased due to the District’s sale of the unused Pennypack Elementary School in June 2022.

As the graph below illustrates, the largest portion of General Fund expenditures are for salaries and benefits. The District is an educational service entity and as such is a labor-intensive operation.

HATBORO-HORSHAM SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2022

The reasons for the variances are outlined below:

- Salaries increased primarily due to contractual salary increases defined in the collective bargaining agreement with the Hatboro-Horsham Education Association. This increase was \$789,182. There were also increases in administrative compensation due to the payment of accrued paid time off for several long-tenured employees that retired and in compensation paid to bus drivers.
- Employee benefits increased by \$1,425,324 due primarily to increased contributions to PSERS (\$894,871). There were also increases in medical insurance (\$238,967), Social Security contributions (\$158,635), and workers' compensation insurance (\$100,897), which were partially offset by a decline in unemployment compensation claim costs (\$88,967).
- Purchased services increased by \$1,243,322 for a variety of reasons, including:
 - Continued virtual education services and other contracted professional services that were fully funded by federal pandemic relief funds.
 - Increasing per diem substitute and paraprofessional costs (in the amount of \$527,395) because of increasing pay rates to attract and retain staff in a difficult labor market.
 - An increase in contracted transportation costs due to the complete return to in-person instruction in 2021-2022 (compared to a partial year of service in 2020-2021).

These increases were partially offset by a decrease in charter school tuition and the impact of GASB Statement No. 87, which shifted these costs to Other Financing Uses.

- Supplies decreased by \$747,098 primarily due to the District's investment in its 1-to-1 technology initiative for student learning, providing each student with an instructional computer, which was completed in 2020-2021 using federal pandemic relief funds. There was a partially offsetting increase in equipment in 2021-2022 of \$373,555 due to the purchase of SmartBoards (also purchased with federal pandemic relief funds).
- Debt service costs decreased due to a reduction in principal payments on the District's outstanding bonds.
- Transfers out increased due to the transfer of funds from committed fund balance to establish the internal service fund for medical insurance.

Capital Projects Fund

The Capital Projects Fund accounts for construction and renovation activity associated with the District's buildings and major equipment purchases. The Capital Projects Fund receives the majority of its revenues from the issuance of general obligation debt and transfers from the General Fund. During 2021-2022, the Capital Projects Fund reported an increase in fund balance of \$5,885,350 due to capital expenditures in excess of proceeds received from general obligation debt and interfund transfers. The remaining fund balance of \$21,955,918 as of June 30, 2022 is restricted for future capital expenditures.

Business-Type Activities

Business-type activities include the Child Care and Food Service programs. The Food Service program is designed to operate at a break-even point so that the cost for the services offered will benefit the School District residents. The Child Care program, which consists of a 4-year old Pre-K program, summer camp and before and after school care is designed to provide residents with reasonably-priced child care service programs while generating revenues to offset General Fund expenditures. Business-type activities received no support from tax revenues. These programs had revenues of \$6,040,833 and expenses of \$3,457,141.

HATBORO-HORSHAM SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2022

The District also established an internal service fund in the 2021-2022 fiscal year to pay for healthcare claims and administrative costs of the District’s medical, dental, and prescription drug insurance programs. The fund incurred expenses of \$12,280,280. Revenues were \$12,493,162, consisting primarily of contributions from the General, Food Service, and Child Care funds.

The Food Service program provided approximately 3,200 lunches and 1,100 breakfast meals per day through the National School Lunch program, as well as additional catering for the School District’s meetings. Food Service receives both federal and state subsidies. It also receives some government commodities on a routine basis. During 2021-2022, the District provided free lunch and breakfast through the SFSP Program and COVID federal and state relief funding. Typically, the revenue for the Food Service Program is a combination of subsidies, student fees and other charges for services. The Child Care programs provided childcare services to 772 children in the 2021-2022 fiscal year. Both programs were buoyed by federal pandemic relief funds in 2021-2022. The federal government subsidized all student meals in 2021-2022 and provided funding to retain childcare workers.

General Fund Budgetary Highlights

- Actual revenue totals exceeded budget by \$4,141,605 (excluding Student Scholarship Fund). The real estate tax collection rate was 98.4%, which was above the budgeted collection rate of 96.5%. Delinquent Real Estate Tax, Transfer, and Earned Income Tax revenues also exceeded budgetary estimates. Additional state funding received during the fiscal year for basic education funding and extraordinary special education costs also contributed to this total. The major variances in revenues compared to budget are summarized in the table below:

	<u>Final Budget</u>	<u>Actual</u>	<u>Variance with Final Budget Positive / (Negative)</u>
Delinquent real estate taxes	\$750,000	\$2,099,507	\$1,349,507
Fund transfers in	1,250,000	0	(1,250,000)
Real estate transfer taxes	925,000	2,139,647	1,214,647
Earned income taxes	5,900,000	7,003,696	1,103,696
Federal ESSER funds (all)	548,156	1,307,054	758,898
Sale of fixed assets	0	573,369	573,369
Current real estate taxes	76,766,220	76,359,696	(406,660)
Basic education funding	5,192,259	5,528,042	335,783

- Actual expenditure totals were lower than anticipated by \$429,735 (excluding the Student Scholarship Fund) due to continued aggressive cost containment practices. The District transferred almost \$5 million to the Capital Reserve, Debt Service, and Medical Funds, consistent with past practice to offset future expenditure increases in the General Fund. Actual salary costs were significantly lower than anticipated since several positions budgeted for were not filled, expenditures for extra pay totals were less than projected, and more employees than anticipated took child-rearing leaves of absence. The corresponding contributions to the retirement system were therefore lower than budgeted, as were actual health insurance costs. Savings were realized in services, supplies, and equipment due to continued prudent fiscal management and the utilization of federal pandemic relief funds to offset purchases. The major variances in expenditures compared to budget are summarized in the table below:

- Total actual expenditures were \$114,558,669. Revenues exceeded expenditures by \$1,521,341. Expenditures included a transfer of \$2,560,829 to the Capital Reserve Fund for future capital needs, a transfer of \$1,438,731 to the Medical Fund to establish an internal service fund with the purpose of offsetting future healthcare costs, and a transfer of \$1,000,000 to the Debt Service Fund for future debt service expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Hatboro-Horsham School District needs to comply with GASB Statement No. 34, which requires that the School District maintain records regarding the cost of capital/fixed assets. For the Hatboro-Horsham School District, capital/fixed assets include land, buildings, furniture and equipment, vehicles and other items that meet the following criteria:

- The individual asset must have a useful life of greater than one year.
- The individual asset cost is equal to or greater than \$4,000 or was purchased with debt proceeds.

In addition to maintaining records on capital/fixed assets for financial statement purposes, the School District will also maintain records for inventory control and depreciation purposes. Individual items costing less than \$4,000 will be expensed within the period purchased.

In addition to maintaining the fixed asset records, the School District will conduct a physical inventory of assets on a regular basis in order to update and maintain a correct listing of assets.

Hatboro-Horsham School District's investment in capital assets for its governmental and business-type activities as of June 30, 2022, totals \$107,801,608 (net of accumulated depreciation). The School District's investment in capital assets include construction in progress, land, site improvements, buildings and machinery and equipment (see Figure A-5). Total capital assets are \$3,298,013 higher than the prior fiscal year totals (net of accumulated depreciation). Governmental Activities accumulated depreciation totals incurred depreciation expense of \$5,288,440, with a net increase of total accumulated depreciation of \$1,811,916 from the June 30, 2021 balance. Outstanding long-term debt obligations increased by a net of \$7,825,000. The increase is the result of the issuance of the 2021 Series Bond Issue, the first of a series of bond issues to be issued to finance the Keith Valley Middle School Construction Project and the principal payments made on outstanding debt. The project was approved by the Board in December 2022.

FACTORS BEARING ON THE SCHOOL DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the School District was aware of the following existing circumstances that could significantly affect its financial health in the future:

- There are a number of economic uncertainties with which the District must contend. Rising prices across all sectors impact the ability to purchase the requisite number of goods within the budgetary limitations. This phenomenon has also increased wage competition, particularly for support staff positions, and the District has to balance the desire to reflexively increase wages with its long-term budgetary constraints.

HATBORO-HORSHAM SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

YEAR ENDED JUNE 30, 2022

- The District approved the plans to build a new Keith Valley Middle School (KVMS). The plans call for the construction of a new building on the current KVMS site, followed by demolition of the existing KVMS and the Administration Building (which will be relocated to within the new building). A natatorium is also being constructed at the building with the intention of closing the current pool at Simmons Elementary School. The project is anticipated to be completed in three years and, as of the date of the financial statements, is estimated to cost almost \$125 million. This project will increase the District's annual debt service obligations and require the continued prudent financial management and strategic use of Debt Service Fund monies. Changes in interest rates, which have been increasing over the last 12 months, pose a challenge should the rates increase beyond what was contemplated in the Project's financing plan.
- The District has been allocated a significant amount of money from the federal Elementary and Secondary School Emergency Relief (ESSER) funding. This funding will help address some of the operational challenges noted above, but ESSER funds come with significant reporting requirements. The funding is also temporary in nature, so the District management must be exceptionally prudent in its spending decisions in order to avoid fiscal distress when the funds expire in September 2024.
- The agreement between the District and the Hatboro-Horsham Education Association (HHEA) expires on June 30, 2023. This agreement governs compensation and benefits for almost 400 employees and represents the single largest expenditure item in the operating budget. The District and HHEA must reach an agreement that is fair and fiscally responsible to ensure student achievement can increase while annual expenditures are reasonable.
- The District conducted an enrollment study during the fiscal year, which identified a modest enrollment decrease over the next few years which will then flatten. The District's elementary facilities are capable of accommodating the current enrollment, and District management must be willing to make minor adjustments to most efficiently utilize the facilities. Discretionary spending budgets should also be more aligned with enrollment changes.
- The District adopted its 2022-2023 General Fund expenditure budget totaling \$121,618,820 that includes the use of \$3,050,000 of fund balance and a real estate tax millage rate increase of 2.94%. If there are limited or declining economic conditions that prevent growth in local revenue, the District will struggle to continue to rely on favorable budget variances to recoup the budgeted deficits. It is important to proactively address budget deficits to avoid having to make reductions to educational programs.
- Act 1 of 2006 provides taxpayer relief through gambling revenues generated by the Commonwealth. The intent of this legislation is to provide a mechanism to relieve the burden of funding public education by property owners. This legislation also put a ceiling on the percentage increase of local real estate taxes that can be levied to balance the school district budget (the Act 1 Index). This law ostensibly requires the District to raise taxes every year because it cannot increase the levy beyond the Act 1 index and may not carryover unused tax increases from one year to the next. This legislation also introduced new requirements on school districts including:
 - That in the event a school district wishes to increase the property tax millage rate by more than the Act 1 Index (4.1% for Hatboro-Horsham School District for 2023-2024), the District must seek voter approval (known commonly as a "back-end referendum") prior to implementing the millage rate increase. In the event voters do not approve the millage rate increase, the school district must limit its millage rate increase to the index.

HATBORO-HORSHAM SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2022

- Certain exceptions are provided under Act 1 that, if approved by the Pennsylvania Department of Education, may permit increases above the Act 1 index without the need for a back-end referendum. These exceptions relate to emergencies and cost increases more than the Act 1 index (e.g., retirement system contributions and special education expenditures) over which the school district has no control. The District has not utilized the exceptions in prior years to help balance the budget.
- Gaming revenues distributed under the provision of Act 1 (Act 1 permitted gambling in Pennsylvania) are to be used for reducing property taxes for homesteads and farmsteads. The District's distribution for 2021-2022 was \$2,453,988.
- In November 2010, and again in 2017, legislation was adopted to implement a series of actuarial and funding changes to the Public School Employees' Retirement System (PSERS). The 2017 legislation changed the pension plans for all new hires effective July 1, 2019. It does not impact the pension benefits of current or retired PSERS members. Based on available projections, school districts will not see relief from the new legislation until 10-20 years in the future. The employer contribution rate for 2022-2023 is certified at 35.26%, which was an increase of 0.92% from the 2021-2022 employer contribution rate of 34.94%. The increase in the employer contribution rate in 2022-2023 is estimated to increase the District's retirement contribution by approximately \$162,727 (irrespective of contractual salary increases), of which the District's local share is \$81,363. The PSERS rate for 2023-2024 was recently certified at 34.00%, the first decrease in employer contributions since 2008-2009. Rates are projected to increase again, however, reaching as high as 37.30% in 2029-2030.
- The District is under agreement of sale for the former Limekiln-Simmons Elementary School. The agreement has been subject to litigation since being approved by the Board in 2016. The ongoing legal and property maintenance costs place a strain on the District's financial resources for a property that is not needed.

HATBORO-HORSHAM SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2022

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 8,381,903
Capital outlays are reported in Governmental Funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$8,936,089) exceeds depreciation (\$5,288,440) in the current period.	3,647,649
Because some property taxes will not be collected for several months after the School District's fiscal year ends, they are not considered as "available" revenues in the Governmental Funds. Deferred tax revenues increased by this amount this year.	333,901
The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to decrease net assets.	(354,955)
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in Governmental Funds:	
Accrued interest not reflected in Governmental Funds	(88,293)
Compensated absences not reflected in Governmental Funds	225,201
Amortization of right to use assets	(1,184,710)
OPEB plan expense	113,036
Pension plan expense	7,540,000
Repayment of bond and lease principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the statement of net assets.	
Bond principal	2,170,000
Lease principal	1,205,433
Proceeds from the bond issue are a revenue in the Governmental Funds, but this amount increases the long-term liabilities in the statement of net position.	(9,995,000)
An Internal Service fund accounts for the District's healthcare employee benefits and charges the costs to individual funds. The excess revenue (expense) is reported with governmental activities.	212,882
Governmental Funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	<u>(978,599)</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u>\$ 11,228,448</u>

HATBORO-HORSHAM SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Hatboro-Horsham School District (the "School District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

The School District uses guidance contained in GASB Statement No. 61, *The Financial Reporting Entity: Omnibus--An Amendment of GASB Statements No. 14 and No. 34*, to evaluate the possible inclusion of related entities within its reporting entity. The criteria used by the School District for inclusion are financial accountability and the nature and significance of the relationships. In determining financial accountability in a given case, the School District reviews the applicability of the following criteria. The School District is financially accountable for:

- Organizations that make up the legal School District entity.
- Legally separate organizations if School District officials appoint a voting majority of the organization's governing body and the School District is able to impose its will on the organization, or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the School District as defined below:
 - * ***Impose its Will*** - If the School District can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.
 - * ***Financial Benefit or Burden*** - Exists if the School District (1) is entitled to the organization's resources, or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization, or (3) is obligated in some manner for the debt of the organization.
- Organizations that are fiscally dependent on the School District. Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval by the School District.

Based on the foregoing criteria, no component units were identified for inclusion in the School District's financial statements.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds

General Fund - The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose provided it is expended or transferred according to the general laws of Pennsylvania.

Capital Reserve Fund - The Capital Reserve Fund is a capital projects fund that accounts for the receipt and disbursement of resources for the purpose of building or buying major capital assets.

Construction Fund - The Construction Fund is a capital projects fund that accounts for the receipt and disbursement of borrowed resources for the purpose of purchasing or building planned major capital assets.

Debt Service Fund - The Debt Service Fund accounts for the resources used for the purpose of paying down existing debt service obligations.

Proprietary Funds

Enterprise Funds - The Enterprise Funds (Food Service Fund and Child Care Fund) account for operations (1) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Fund - This fund accounts for the financing of services by one department or agency to the other governmental units. The District's internal service fund is used to account for the activity related to the District's self-insured medical plan. Since this fund supports largely governmental activities, its activity is included in governmental activities in the government-wide statements.

Fiduciary Funds - Fiduciary Funds reporting focuses on net position and changes in net position.

Custodial Fund - The Custodial Fund (Student Activity Fund) accounts for the assets held by the School District as an agent for individuals. This fund accounts for programs operated and sponsored by various student clubs and organizations.

Basis of Presentation and Accounting

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for the Fiduciary Funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the Proprietary Funds financial statements but differs from the manner in which Governmental Funds financial statements are prepared. Governmental Funds financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for Governmental Funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements - Fund financial statements report detailed information about the School District. The focus of Governmental and Proprietary Funds financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Fiduciary Funds are reported by fund type.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded only when payment is due. The financial statements for Governmental Funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The Proprietary Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

The Proprietary Funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Proprietary Funds' principal ongoing operations. The principal operating revenues of the School District's Enterprise Funds are charges to students for sales and services. Operating expenses of the Enterprise Funds include cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds are reported using the economic resources measurement focus.

When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash Equivalents

All highly liquid investments with an original maturity of three months or less when purchased are considered to be cash equivalents.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

Statutes authorize the School District to invest in: 1) obligations, participations and other instruments of any Federal agency, 2) repurchase agreements with respect to U.S. Treasury bills or obligations, 3) negotiable certificates of deposit, 4) bankers' acceptances, 5) commercial paper, 6) shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933, and 7) savings or demand deposits. The specific conditions under which the District may invest in these categories are detailed in Pennsylvania Act No. 53 of 1973, as amended by Pennsylvania Act No. 10 of 2016. Investments are stated at fair value.

Pennsylvania Local Government Investment Trust Funds are invested in accordance with Section 440.1 of the School Code. Each school district owns a pro rata share of each investment or deposit which is held in the name of the fund.

Under Act No. 72, enacted by the General Assembly of the Commonwealth of Pennsylvania, the funds deposited with the various banks are permitted to be secured on a pooled basis with all other public funds which the banking institution has on deposit. These may be bonds of the United States, any state of the United States, or bonds of any political subdivision of Pennsylvania or the general state authority or their authorities created by the General Assembly of the Commonwealth of Pennsylvania, or insured with the Federal Deposit Insurance Corporation. The market value of such bonds pledged must equal 120% of the funds deposited. The security pledged by the various depositories utilized during the year and at June 30, 2019, was in excess of the minimum requirements just described.

The School District has adopted GASB Statements No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, No. 72, *Fair Value Measurement and Application* and No. 79 *Certain External Investment Pools and Pool Participants*. In accordance with these Statements, investments in marketable securities with readily determinable fair value and all investments in debt securities are reported at their fair values. Investments in qualifying external investment pools are reported at amortized cost basis.

Short-Term Interfund Receivables/Payables

During the course of operations, transactions may occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the Governmental Funds balance sheet. Short-term interfund loans are classified as "interfund receivables/payables."

Inventories

Inventory of food and milk in the Food Service Fund consists of supplies purchased and donated foods received from the federal government. Donated foods are valued at fair market value in accordance with the *Manual of Accounting for Pennsylvania School Systems - Food Service Fund*. Food and supplies are carried at cost using the first-in, first-out method. Inventories of Governmental Funds are recorded as expenditures when consumed rather than when purchased.

Inventories on hand in the Food Service Fund at June 30, 2022, consist of the following:

Supplies	\$ 31,481
Purchased food	23,232
Donated foods	<u>26,811</u>
	<u>\$ 81,524</u>

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The School District defines capital assets as assets with an initial, individual cost equal to or greater than \$4,000 (amount not rounded) or purchased with debt proceeds, and the assets must have an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Property, plant and equipment of the School District are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Site improvements	15-20
Building and building improvements	15-45
Machinery and equipment	5-20

Plant and equipment in the Proprietary Funds (Food Service Fund) are being depreciated on a straight-line basis over an estimated 12-year life. Computers in the Food Service Fund are depreciated on a straight-line basis over a 7-year life.

NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-Term Obligations

In the government-wide financial statements and Proprietary Funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Funds statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, Governmental Funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Leases

The School District is a lessee for noncancellable leases of equipment. The School District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The School District recognizes lease liabilities with an initial, individual value of \$4,000 or more.

At the commencement of a lease, the School District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the School District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The School District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the School District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the School District is reasonably certain to exercise.

The School District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has three items that qualify for reporting in this category. The first item is the deferred outflow related to pension activity, reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred outflow related to pension activity is the result of differences between expected and actual experience, differences between projected and actual investment earnings, changes in proportions, and actual contributions subsequent to the measurement date. The second item is the deferred outflow of resources related to OPEB activities, reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred outflow related to OPEB activity is the result of the difference between expected and actual experience, changes in assumptions, the difference between projected and actual earnings, changes in proportions and actual contributions subsequent to the measurement date. The third item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition prices. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has two items that qualify for reporting in this category. The first item, deferred inflows related to pension activity, are reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred inflow related to pension activity is the result of differences between expected and actual experience, changes in proportions and the difference between actual employer contributions and the School District's proportionate share of total contributions, and changes in the School District's proportionate share of the total plan from year to year. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second item, deferred inflows related to OPEB activity, are reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred inflow related to OPEB activity is the result of changes in assumptions, changes in proportions and the difference between employer contributions and the proportionate share of total contributions.

Fund Balance

The School District has implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the School District's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- ***Nonspendable Fund Balance*** - Amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- ***Restricted Fund Balance*** - Amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government) through constitutional provisions or by enabling legislation.
- ***Committed Fund Balance*** - Amounts constrained to specific purposes by the School District itself, using its highest level of decision-making authority (the Board of School Directors). To be reported as committed, amounts cannot be used for any other purpose unless the School District takes the same highest level action to remove or change the constraint.
- ***Assigned Fund Balance*** - Amounts the School District intends to use for a specific purpose. Intent can be expressed by the Board of School Directors or by the Superintendent or Director of Business Affairs to whom the Board of School Directors has delegated the authority.
- ***Unassigned Fund Balance*** - Amounts available for any purpose. Positive amounts are reported only in the General Fund.

The Board of School Directors establishes (and modifies or rescinds) fund balance commitments by passage of a motion. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a commitment of the fund. Assigned fund balance is intended to be used by the School District for specific purposes but does not meet the criteria to be classified as restricted or committed.

The School District will typically use restricted fund balances first, followed by committed resources and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Net Position Flow Assumption

Sometimes the School District will fund outlays for a particular purpose for both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and Proprietary Funds financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

NOTE B - CASH AND INVESTMENTS

Cash

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk but the District's Investment Policy does require confirmation of collateralized investments as required by Act 72 for any depository institution that holds funds in excess of the FDIC Insurance Limit for the protection of public funds. As of June 30, 2022, the bank balance of the School District's deposits were \$74,076,455. Of the bank balance, \$957,679 was covered by federal depository insurance and \$42,038,565 was exposed to custodial credit risk as follows:

Collateral Letters have been provided by the depository institutions providing the detail of the assets held by pledging banks' Trust Department through a third-party provider for uninsured balances of \$42,038,565.

The remaining cash deposits totaling \$31,080,211 are in state investment pools. Although the deposit balance exceeds the FDIC Insured Limits, the investments made through the state investment pools are invested directly into a portfolio of securities which are held by a third-party custodian in accordance with Governmental Accounting Standards Board ("GASB" requirements). The Trust invests in two basic types of federal securities: obligations backed by full faith and credit of the United States Government and short-term obligations of the United States Government or its agencies or instrumentalities.

Interest Rate Risk - The School District's investment policy limits investment maturities in accordance with the Commonwealth of Pennsylvania School Code as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2022

NOTE B - CASH AND INVESTMENTS (Continued)

Investments

As of June 30, 2022, the School District had the following investments and maturities:

A portion of the School District's cash investments is in the PSDLAF and PLGIT programs, of which are funds similar to mutual funds. GASB Statement No. 3, Paragraph 69, provides that certain types of cash investments, such as cash investments in a State Treasurer's investment pool or mutual fund, cannot be assigned a credit risk category because the government does not own specific securities. Therefore, the PSDLAF and PLGIT cash investments included in these statements will not be assigned a credit risk category. The carrying amount of these investments at June 30, 2022, is \$105,017. These assets maintain a stable net asset value of \$1 per share. PSDLAF is not SEC-registered. All investments are monitored weekly by Standard & Poor's and are subject to an independent audit on an annual basis.

Investments held with qualifying external state investment pools are valued at amortized cost in accordance with GASB Statement No. 79. The School District had \$105,017 invested in PSDLAF Max accounts.

NOTE C - TAXES - REAL ESTATE AND OTHER

The School Board is authorized by state law to levy property taxes for School District operations, capital improvements and debt service. In addition, the School District levies a .5% earned income tax. Property taxes are based on assessed valuations of real property within the School District.

Taxes are levied on July 1 and payable in the following periods:

Discount period July 1 to August 31 - 2% of gross levy
 Face period September 1 to October 31
 Penalty period November 1 to collection - 10% of gross levy
 Lien date January 15

School District taxes are billed and collected by the local elected tax collector for Hatboro Borough and an appointed tax collector for Horsham Township. Property taxes attach as an enforceable lien on property as of July 1.

NOTE D - ACCOUNTS RECEIVABLE

NOTE G - LONG-TERM DEBT

General Obligation Bonds

The School District issues general obligation bonds to provide funds for acquisition and construction of major capital facilities. The original amount of general obligation bonds issued in prior years was \$66,425,000. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as 20-year serial bonds with equal amounts of principal maturing each year.

In October 2021 the School District issued General Obligation Bonds, Series of 2021 in the amount of \$9,995,000. The bond was issued to plan, design, acquire, construct, furnish, install and equip Keith Valley Middle School and undertake other various capital improvement projects for the benefit of the School District and to pay the costs of issuing the Bonds.

NOTE J - PENSION PLAN

Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan Description - PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

NOTE J - PENSION PLAN (Continued)

Benefits Provided - PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending on membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Employer Contributions

The School District's contractually required contribution rate for the fiscal year ended June 30, 2022, was 33.99% of covered payroll, actuarially determined as an amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the plan from the School District were \$17,399,000 for the year ended June 30, 2022.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the School District reported a liability of \$140,537,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2022, the School District's proportion was 0.3423%, which was a decrease of 0.0058% from its proportion measured as of June 30, 2021.

Changes in Actuarial Assumptions - The total pension liability as of June 30, 2021, was determined by rolling forward the System's total pension liability as of the June 30, 2020 actuarial valuation to June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date - June 30, 2020
- Actuarial cost method - entry age normal - level % of pay
- Investment return - 7.00%, includes inflation at 2.50%
- Salary growth - effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSER's experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability decreased from 7.25% as of June 30, 2020 to 7.00% as of June 30, 2021.
- Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:
 - Salary growth rate - decreased from 5.00% to 4.50%.
 - Real growth and merit or seniority increases (components for salary growth) - decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
 - Mortality rates - previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2020.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount Rate - The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

NOTE K - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS - PSERS

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost share, multiple employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or PSERS' Health Options Program. As of June 30, 2020, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2021, there were no assumed future benefit increases to participating eligible retirees.

Contributions

The District's contractually required contribution rate for the fiscal year ended June 30, 2022 was 0.80% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$409,000 for the year ended June 30, 2022.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the District reported a liability of \$8,148,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2022, the District's proportion was 0.3438% which was a decrease of 0.0062% from its proportion measured as of June 30, 2022.

\$409,000 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending June 30,</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>

Thereafter	<u>89,000</u>	<u>3,000</u>
	<u>\$ 834,000</u>	<u>\$ 27,000</u>

Actuarial Assumptions

The Total OPEB Liability as of June 30, 2021, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2020 to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 2.18% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%.
 - Eligible retirees will elect to participate Post age 65 at 70%.

NOTE K - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS - PSERS (Continued)

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2019 determined the employer contribution rate for fiscal year 2021.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

The above was the Board’s adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.18%. Under the plan’s funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan’s fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a “pay-as-you-go” plan. A discount rate of 2.18% which represents the S&P 20 year Municipal Bond Rate at June 30, 2021, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the District's Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2020, retirees receiving Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2021, 93,392 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2020, 611 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the net OPEB liability for June 30, 2021, calculated using current Healthcare cost trends as well as what the net OPEB liability would be if health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease	Current Rate	1% Increase
District's net OPEB liability	\$ <u>8,147,000</u>	\$ <u>8,148,000</u>	\$ <u>8,149,000</u>

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.18%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.18%) or 1-percentage point higher (3.18%) than the current rate:

	1% Decrease 1.18%	Current Discount Rate 2.18%	1% Increase 3.18%

NOTE L - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS - SINGLE EMPLOYER PLAN

Plan Description

The School District administers a single-employer defined benefit healthcare plan. The plan provides health care to eligible retired employees and spouses through a single-employer defined benefit plan. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a stand-alone financial report. The activity of the plan is reported in the School District’s General Fund.

Administrators: Medical, dental, prescription drug and life insurance benefits are payable at 65% of the premium to members who have 15 years of service with the School District (final ten must be as an administrator) and are eligible for retirement through PSERS. Spouses are included in the medical, dental and prescription drug benefits. Benefits cease upon eligibility for Medicare.

Retirees who do not meet the above criteria will be eligible for partial coverage if the retiree has a minimum of ten (10) years of service in the Hatboro-Horsham School District, at least seven (7) of which has been as an administrator defined under Act 93. Partial coverage will be limited to a \$2,500 annual contribution toward the cost for health and dental costs up to age 65.

Teachers: Medical, dental and prescription drug benefits are payable to all members who retired prior to July 1, 2003. Benefits are also payable to teachers hired prior to July 1, 2003, who retired after July 1, 2003, have 15 years of service with the School District and are eligible for retirement through PSERS. Benefits are payable to teachers hired after July 1, 2003, when they are eligible for retirement through PSERS.

Support Staff: All members who are eligible for PSERS retirement are eligible to continue coverage for themselves and their dependents. Retirees over age 65 who are still eligible for coverage are required to participate in a Medicare Advantage Plan (PC 65) or terminate coverage.

Plan Membership

At July 1, 2020, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	38
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	568
	<hr/>
	606

Funding Policy and Funding Status

Administrators: The School District will pay 65% of the premium for medical, dental and prescription drug benefits and the full premium for life insurance in the amount of three times the final salary up to a maximum of \$500,000 for active employees, or three times their salary up to a maximum of \$500,000 for non-active employees who were under 65 at retirement.

Teachers: For teachers who retired prior to July 1, 2003, the School District will pay 55% of the premiums for medical, dental and prescription drug benefits. For teachers hired prior to July 1, 2003, and retiring after July 1, 2003, the School District's contributions are based on the member's service level as of the 2003-2004 school years.

For those teachers at service level steps 1-5, the member is responsible for all premiums for coverage for up to eight years of medical, dental and prescription drug with no District contribution. For those teachers at service level steps 6-10, the School District will pay 50% of the single premium in the 2003-2004 school year for medical, dental and prescription drug benefits for up to eight years. For those teachers at service level steps 11-15, the School District will pay 50% of the premium in the 2003-2004 school year for medical, dental and prescription drug benefits for up to eight years, with the premium used for the School District portion based on the medical tier the employee was at during the 2003-2004 school year. For teachers hired after July 1, 2003, the School District will not contribute any funds towards the premium.

Support Staff: Members who are eligible for PSERS retirement must provide payment equal to the premium determined for the purpose of COBRA.

The plan is an unfunded plan with no assets accumulated in a trust. Contributions to the plan are equal to benefit payments. For the year ending, June 30, 2021, benefit payments paid as they came due were \$94,877.

Assumptions

The following assumptions and actuarial methods and calculation were used:

Interest Rate - 2.28%, based on S&P Municipal Bond 20 Year High Grade Rate Index at July 1, 2021.

Salary - An assumption for salary increases is used only for spreading contributions over future pay under the entry age normal cost method. For this purpose, salary increases are composed of a 2.5% cost of living adjustment, 1% real wage growth, and for teachers and administrators a merit increase which varies from 2.75% to 0%.

Health Care Cost Trend Rate - 5.5% in 2020 through 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

Withdrawal - Rates of withdrawal vary by age, gender and years of service. Sample rates for employees with more than 10 years of service are shown below. Rates for new employees start at 22.9% for both men and women and decrease with age and service.

<u>Age</u>	<u>Male Rate</u>	<u>Female Rate</u>	<u>Age</u>	<u>Male Rate</u>	<u>Female Rate</u>

35	1.50%	2.85%	55	3.38%	3.11%
40	1.34%	1.60%	60	5.57%	6.40%

Mortality - Separate rates are assumed preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into the table are rates projected generationally by the Buck Modified 2016 projection scale to reflect mortality improvement.

Disability - No disability was assumed.

Retirement - Assumed retirement rates are based on PSERS plan experience and vary by age, service and gender.

Percent of Eligible Retirees Electing Coverage in Plan - 100% of administrators, 75% of teachers eligible for a subsidy, 25% of administrators and teachers not eligible for a subsidy, and 10% of the support staff are assumed to elect coverage.

Percent Married at Retirement - 25% of employees are assumed to be married and have a spouse covered by the plan at retirement. Non-spouse dependents are deemed to be immaterial.

Spouse Age - Wives are assumed to be two years younger than their husbands.

Retiree Contributions - Retiree Contributions are assumed to increase at the same rate as the Health Care Cost Trend Rate.

Actuarial Value of Assets - Equal to the Market Value of Assets.

Actuarial Cost Method - Entry Age Normal - Under the Entry Age Normal Cost Method, the Normal Cost is the present value of benefits allocated to the year following the valuation date. Benefits are allocated on a level basis over the earnings of an individual between the date of hire and the assumed retirement age. The Accrued Liability as of the valuation date is the excess of the present value of future benefits over the present value of future Normal Cost. The Unfunded Accrued Liability is the excess of the Accrued Liability over the Actuarial Value of Assets. Actuarial gains and losses serve to reduce or increase the Unfunded Accrued Liability.

NOTE N - LEASES PAYABLE

The School District has entered into leases for various equipment. The lease agreements qualify as an other than short-term lease under GASB 87 and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of implementation.

The School District has the following leases:

<u>DESCRIPTION</u>	<u>TERM</u>	<u>PAYMENT AMOUNT</u>
Copiers	Monthly thru March 2027	\$20.81 per month
Copiers	Monthly thru June 2023	\$7,237.97 per month

Computers	Annually thru July 2024	\$440,916.91 annually
Computers	Annually thru July 2022	\$444,132.38 annually

The lease liability is measured at a discount rate of 4%, which has been determined to be the School District's estimated incremental borrowing rate.

The future minimum lease obligations under the leases at June 30, 2022 were as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 1,003,778	\$ 78,214	\$ 1,081,992

NOTE O - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. It is the policy of the School District to purchase commercial insurance for the risks of loss to which it is exposed, including workers' compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

Effective September 1, 2014, the District became self-insured for medical, dental, and prescription insurance for employees and their dependents. Effective July 1, 2021, the District established an internal service fund to administer future self-insurance benefits to all eligible District employees. The District uses a third-party administrator to provide consulting and administrative services to process claims within the self-insurance fund. For the year ended June 30, 2022, the District has coverage for claims in excess of \$150,000 per person and a lifetime benefit limit of \$1,000,000.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of recent claim settlement trends as determined by the District's independent third-party administrator.

Changes in claims obligations for the internal service fund are as follows for the year ended June 30, 2022:

Claims payable, beginning of fiscal year	\$ -
Incurred claims	12,280,280
Payments	<u>(10,295,873)</u>
Claims payable, end of fiscal year	<u>\$ 1,984,407</u>

NOTE P - PARTICIPATION IN PUBLIC ENTITY RISK POOL

The School District is self-insured for worker's compensation under the laws of the Commonwealth of Pennsylvania. The School District is approved for self-insured workers' compensation annually from July 1 to June 30 by the Bureau of Workers' Compensation, Pennsylvania Department of Labor and Industry. The School District belongs to the School Districts Insurance Consortium (the "Consortium"), which is an association of 76 public school districts that pool their funds under the Intergovernmental Cooperation Act, Act 180 of 1972, as amended, in order to reduce workers' compensation insurance costs. The Commonwealth holds the School District fully responsible for all workers' compensation claims which arise during the period it is self-insured. The Consortium has an excess reinsurance policy to limit the self-insurance loss retention on individual worker's compensation claims. The policy provides reinsurance for the portion of an individual claim that is in excess of \$500,000.

NOTE Q - PRIOR PERIOD RESTATEMENT

For the year ending June 30, 2022, the School District has made a prior period adjustment to eliminate a prior year overstatement of estimated liabilities. The effect of the adjustments is to increase beginning fund balance on the General Fund by \$484,929, from \$21,872,084 to \$22,357,013 and to adjust beginning net position for the government-wide governmental activities by \$484,929 from (\$70,388,502) to (\$69,903,573).

The School District implemented GASB Statement No. 87, Leases, effective July 1, 2021. The objective of GASB 87 is to better meet the information needs of the financial statement user by improving accounting and financial reporting for leases by governments. The Statement requires recognition of lease assets and liabilities using the foundational principle that leases are financings of the right to use an underlying asset. For the government-wide governmental activities, the School District has treated the beginning of the year lease assets and liabilities as having been recognized in the period incurred. As part of the implementation, the School District has adjusted the beginning balance of both Right to Use Leased Assets and Lease Liabilities from \$0 to \$3,221,415.

HATBORO-HORSHAM SCHOOL DISTRICT
NOTE TO THE BUDGETARY COMPARISON SCHEDULE
YEAR ENDED JUNE 30, 2022

NOTE A - BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. An annual appropriated budget is adopted for the General Fund. All annual appropriations lapse at fiscal year-end. Project-length financial plans are adopted for all Construction Funds.

The School District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the Director of Business Affairs submits to the School Board a final proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted at the School District offices to obtain taxpayer comments.
3. Prior to July 1, the budget is legally enacted through passage of an ordinance.
4. The Board may approve the transfer of unencumbered budgeted amounts between departments within any fund.
5. The operating budget is adopted on a basis prescribed by the Department of Education.

Controls over spending in the Construction and Capital Reserve Funds are achieved by Board approval and the use of internal spending limits. Effective expenditure control is achieved in the Construction and Capital Reserve Funds through bond indenture provisions and Board approved spending.

All budget amounts presented in the accompanying required supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions to the annual budgets during the year).

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Hatboro-Horsham School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Hatboro-Horsham School District's basic financial statements, and have issued our report thereon dated January 23, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Hatboro-Horsham School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hatboro-Horsham School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Hatboro-Horsham School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Hatboro-Horsham School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

***Independent Auditors' Report on Compliance for Each Major Federal Program and
Report on Internal Control Over Compliance in Accordance With the Uniform Guidance***

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Hatboro-Horsham School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Hatboro-Horsham School District's major federal programs for the year ended June 30, 2022. Hatboro-Horsham School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Hatboro-Horsham School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Hatboro-Horsham School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Hatboro-Horsham School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Hatboro-Horsham School District's federal programs.

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Hatboro-Horsham School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Hatboro-Horsham School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Hatboro-Horsham School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Hatboro-Horsham School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Hatboro-Horsham School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

To the Board of School Directors
Hatboro-Horsham School District
Horsham, Pennsylvania

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

HATBORO-HORSHAM SCHOOL DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF
FEDERAL AND CERTAIN STATE AWARDS
YEAR ENDED JUNE 30, 2022

NOTE A - GENERAL

The accompanying schedule of expenditures of federal and certain state awards presents the activity of all federal financial assistance programs of the School District. The School District's reporting entity is defined in Note A to the School District's financial statements. Federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies or nonprofit organizations, is included on the schedule.

NOTE B - BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal and certain state awards is presented on the modified accrual basis of accounting which is described in Note A to the School District's financial statements. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE C - RELATIONSHIP TO FINANCIAL STATEMENTS

The schedule of expenditures of federal and certain state awards presents only a selected portion of the activities of the School District. It is not intended to, and does not, present either the balance sheet, revenues, expenditures and changes in fund balances of the Governmental Funds and changes in net position of the Proprietary Funds or cash flows of the School District. The financial activity for the aforementioned awards is reported in the School District's statement of revenues, expenditures and changes in fund balances of the Governmental Funds and statement of revenues, expenses and changes in net position and cash flows of the Proprietary Funds. In certain programs, the expenditures reported in the financial statements may differ from the expenditures reported in the schedule of expenditures of federal and certain state awards due to program expenditures exceeding grant or contract budget limitations, which are not reported as expenditures in the schedule of expenditures of federal and certain state awards.

NOTE D - ADMINISTRATIVE EXPENSES

The expenditures in the accompanying schedule of expenditures of federal and certain state awards include an allocation of administrative expenses. These allocations are based upon amounts permitted under each individual financial assistance program.

NOTE E - INDIRECT COST RATES

The School District has not elected to use the 10% de minimis indirect cost rate as allowed in the Uniform Guidance, Section 414.
