

1:1 Technology Fee

As part of the 1:1 learning initiative, students are able to take the computer home from school. As a result of this, there will be a 1:1 technology fee that must be paid prior to the start of the school year.

- The technology fee is \$30 per student with a \$250 deductible for theft or loss.
- The technology fee, but not the deductible, will be adjusted for any family that participates in the Free and Reduced Lunch Program. Families in the Free and Reduced lunch program will be required to pay the deductible, \$250 for theft or loss.
- The technology fee will provide accidental damage protection for damage to the laptop.
- The Parent/Guardian and Student accept all uninsured financial responsibility with respect to damage, loss or theft of the laptop computer while it is in the possession, custody or control of the student.
- The District reserves the right for final determination of insurance claims.
- Students that do not pay the technology fee are not permitted to remove the laptop computer from the school building.

Family fee	Free and/or Reduced Lunch
\$30 per child	Reduced designation = ½ the family fee Free designation = no cost to the family
Deductible for all students (lost, intentional damage or theft) = \$250
