Grade: Second Grade  Week of: April 13th

Topic: Parts of a Book/How a Book is Made

Important Ideas to Remember: The Publisher is the company that makes and prints the book. The City of Publication is where the book was published. The Copyright Date is when the book was published. The Title Page tells the title, author, and illustrator of the book, as well as the publisher’s name and city.

Activity: Use the words in the word bank to label the parts of the book! You can write the words on the lines, or tell someone at home what each line points to. Watch the video (link below) if you want a hint!
