

Child Care Drop Off Procedures

Children who attend the before-school and after-school programs should be dropped off by their adult family member in the main lobby of every elementary school with the exception of Blair Mill. Blair Mill families will drop their children off at entrance located to the left of the cafeteria doors. Upon entry, you will sign your child in or out of the program with staff person assigned to assist parents during arrival and dismissal. All parents and guardians will be required to show identification when picking up their child. The staff will then have your child brought to the lobby area for pick up.

The District continues to make every effort to find a suitable balance between community access to our schools and providing for a safe learning environment. We understand some of these changes will, at times, slightly extend the time required to drop off and pick up your child. However, we believe these security changes are needed to provide the safest environment possible for our students, families, and staff.

We appreciate your partnership in this effort!

Sincerely,

Jacqueline Barnhart

Director of Child Care
